

Physik * Jahrgangsstufe 8 * Energiearten und Energiewandler

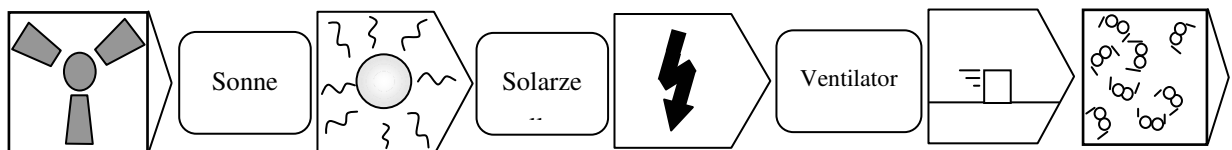

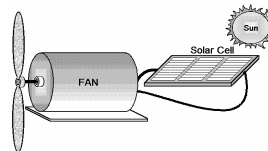

Welche **Energiearten** werden durch die Bilder veranschaulicht?
 Worin unterscheiden sich die Energiearten in den beiden Reihen?

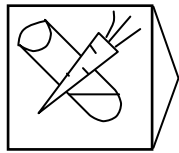

Bestimmte Geräte wandeln die Energiearten um. Welche Energiearten wandeln die abgebildeten **Energiewandler** ineinander um?

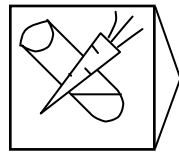

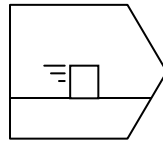

Das folgende **Energieflussdiagramm** zeigt, wie die Sonne einen Ventilator antreibt.

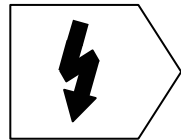

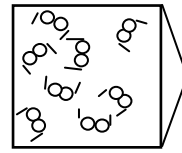

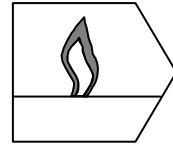

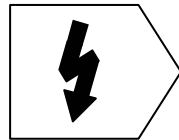

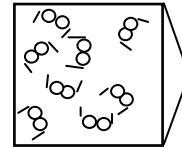

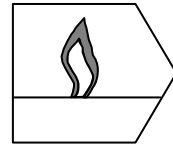

Motor

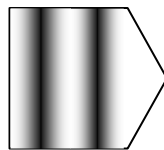

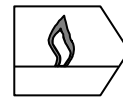

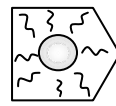

Heizung

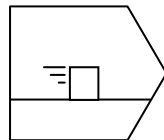

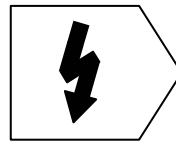

Heizung

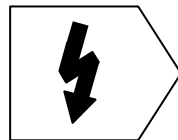

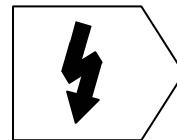

Lampe

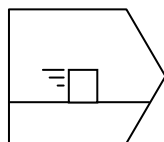

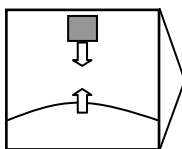

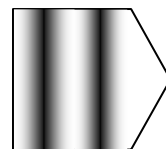

Mikrophon

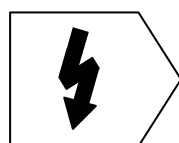

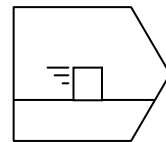

Generator

Radio

Turbine

Lautsprecher
